## Workshop, Tuesday, January 18

### Photoshop Overview—Bill Burychka

6:30 By Video Conference

In our workshop, **Bill Burychka** will present an overview of Photoshop for photographers.

Lightroom and Photoshop share many capabilities. Recent additions for subject selection, sky replacement, harmonization among objects, and a several other functions, are common to both programs. Lightroom and Photoshop both offer nondestructive adjustments, but use different methods. In Photoshop, Layers give the photographer nondestructive capabilities. Layers are, to many people, the real strength and advantage of Photoshop. The use of layers will be the primary focus of this Photoshop discussion.

Bill Burychka, Workshop Chair

## Back To Bayland?— No, Not Yet

In late November, it looked like we would be able to begin in-person meetings at Bayland in January. Unfortunately, because of the spike in Covid cases and the new Covid variant, our Executive Committee has decided to continue video conferencing meetings in January. The committee will look at the situation again in mid-January.

Please join the club meetings and participate. We look forward to seeing you there.

## Earl Gilbert Architectural Contest

It is time to be thinking about your entry for this year's Architectural Contest. March will be here before you know it.

The Architectural Contest was established to honor the contribution Earl Gilbert made to the club.

Entries for this contest will be submitted in March. Subjects may be anything of an architectural nature. Details on submitting entries will be announced in the March Rangefinder., available in late February.

Each maker may submit one print. Pictorial print rules apply. Images are limited to 8 1/2" by 11" in size.
